

UNIO Workstation

**Re-defining
future
workspace
now.**

unio®

Innovating the workplace
for tomorrow, today

Space Saving Money Saving

Our pioneering design created a space saving and cost effective workspace.

UNIO offers smart ergonomics that will improve mental and physical well-being, increase productivity and reduce absenteeism. Return on investment could be secured within months.

UNIO Benefits

Ease of use

UNIO is the only workstation in the world to have independent, electronically moving Desk and Monitor.

Design Styled

Futuristically styled for the most discerning of buyers, create a statement office and be the envy of the workspace.

Financial Benefits

Saves money as it allows for neighbourhoods to be created in less space meaning more efficiency in your workspace.

Connectivity

Includes USB/C, Power and Data, overhead light and Storage. Cables are hidden in the core to create a visually appealing workspace.

Health Benefits

Sitting and Standing at a workstation is proven to be healthier for us, meaning there are fewer musculoskeletal and other health issues.

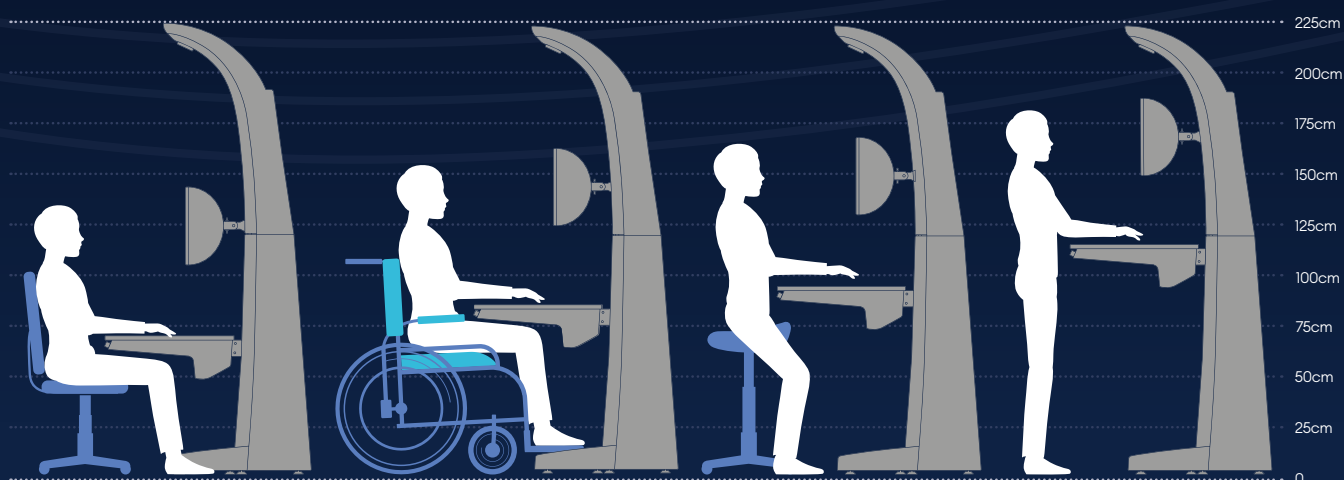

Space Saving

Space saving of up to 27% when compared to a conventional desk and office layout *based on 1600 x 800mm Bench Systems.

Change Your Position

Created to be simple, functional and stand the test of time.

Our sit-stand workstation allows users to change position throughout the workday effortlessly, as well as promoting a healthy and balanced level of activity in the workplace.

Connectivity

With its unique 90° footprint UNIO can be positioned in corners, or form a neighbourhood of 2, 3, or 4 units in any area of your workplace.

Internal modular wiring keeps the area clutter-free without the need for any cable management.

Plug and Play with UNIO.

Your style. Your way.

**Show off your creativity and
be the envy of all your peers.**

Imagine a workstation that will match your brand, office environment and interior design. Choose from a selection of coloured panels or fabrics to inspire your workforce and customers with your unique customisation.

**Where desire and design
meet, there are no limits.**

UNIO's standard colour scheme is white to the rear with a grey front along with a spacious 1250 x 600mm floating worktop.

Adaptable

Pushing boundaries and breaking with convention. In today's advancing workspace, comfort or connectivity should not be an issue. Independent touch button controls smoothly and quietly adjust the monitor and desk, while built-in cable management results in unrivalled wire-free spaces.

Single, Double or Ultra Wide Monitor

Our universal Vesa plate means we can house a wide range of monitors to suit your preferences. From flat or curved, single or double monitors, or even ultra-wide panels.

Typical limitations without overlapping;

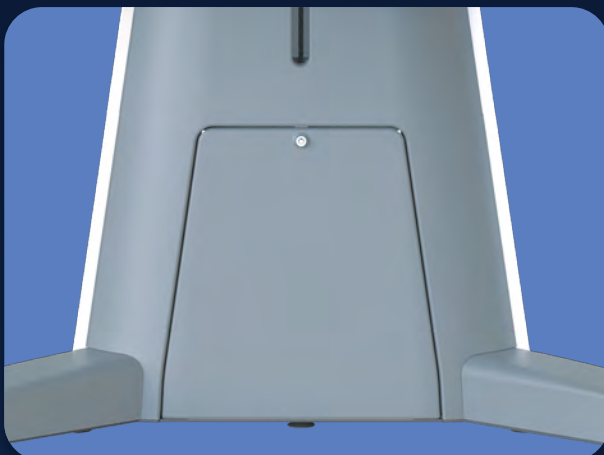

- Flat single 16:9 up to 38"
- Flat double 16:9 up to 2 x 27"
- Ultra-wide curved 32:9 up to 49"

**monitor not included*

Power Module

Available in various options. Colours available Black, Grey or White with Chrome Bezel, 80mm.

- 1 x Fused Socket, 1 x USB/C
- 1 x Fused Socket, 1 x USB/C, 1 x HDMI,

- 1 x Fused Socket, 1 x USB/C, 1 x HDMI, 1 x RJ45/Data

Lockable Storage Options

- Practical and convenient hinged locker
- Micro PC friendly
- Personal belongings or hot desk storage
- Optional power to enable laptop charging
- Dimensioned to accommodate games consoles

The future is now

With workspaces being redefined right now worldwide, this is the perfect time to go beyond the possible and move to an innovative and groundbreaking office design that inspires curiosity and creativity.

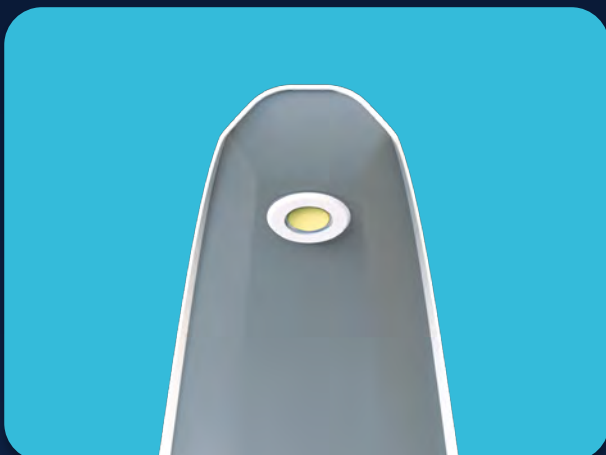

Making height adjustable so easy

With internal independent actuators that effortlessly move the desk and monitor * at the touch of a button, it couldn't be simpler to find your perfect position.

**UK Patent Application No. 2210413.7*

Create Your Own UNIO Neighbourhood

We have designed UNIO to be compact and fit the spaces that are usually wasted. From a feature (stand alone) unit or an unused corner, to a set of two against a wall or a cluster of four in an office, the unique shape is open to your creativity.

Integrated Task Light uses LED

The task light also helps to reduce eye strain, improve computer-based reading comfort and reduce energy usage.

LEDs use as little as 10% of the energy and last up to 60 times longer than halogen. This means they are more cost and energy efficient than comparable incandescent bulbs.
